## PERSONAL STATEMENT

Adaptable Gyalpozhing College of Information Technology Computer Science graduate, specialized in full-stack development. My educational background, combined with hands-on experience in React, React Native, HTML, CSS, JavaScript, and UI/UX design gained through academic projects, will allow me to build and deliver responsive, user-ready web and mobile applications. This, in unison with a passion for creating intuitive user experiences, a drive to continuously learn and adopt new technologies as needed, and a commitment to solving real-world problems through technology, will allow me to slot into your team seamlessly and help you build scalable, production-ready digital solutions.

## SKILLS

### Technical Skills

- Front-End Development: React, React Native, JavaScript, HTML, CSS
- UI/UX Design: Figma, Wireframing, Prototyping
- Backend Development: Node.js, MySQL
- Project Management: Team Collaboration, Agile Workflow, GitHub

### Soft Skills

- Attention to detail
- Problem-solving
- Communication
- Adaptability
- User empathy

## EXPERIENCE

| ○ | <b>B.Sc. in Computer Science, Full-Stack Development</b> | 2022 – 2026 |
|   | Gyalpozhing College of Information Technology, Thimphu   |             |
| ○ | <b>High School</b>                                       | 2018 – 2021 |
|   | Samtse Higher Secondary School, Samtse                   |             |

# PROJECTS

**Thim Dorji Resort – Online Reservation & Booking System**

Aug – Nov 2025

Role: Full-Stack Developer (Frontend & UI/UX)

- Built a responsive resort website using React, allowing guests to explore facilities, view rooms, and check real-time availability
- Crafted wireframes in Figma, translating designs into clean, functional frontend components
- Developed frontend dashboards for admin and receptionist content management

**Tourify – Tourism Management Platform**

Feb – May 2025

Role: Full-Stack Developer (Frontend & UI/UX)

- Built role-based interfaces for tourists, travel agencies, and administrators using React
- Designed and developed an intuitive package browsing and booking experience for tourists
- Developed dedicated agency and admin dashboards with structured, user-friendly interfaces to manage their services, bookings, and overall tourism operations

**NoRoom – Homestay Booking Platform**

Feb – May 2025

Role: Full-Stack Developer (Frontend & UI/UX)

- Built role-based interfaces for admins, hotel owners, and customers using React and React Native
- Developed intuitive UI for real-time availability display, reviews, and ratings
- Designed a seamless browsing and booking experience connecting tourists with homestays across Bhutan

**GCIT News App – Campus Mobile Application**

Feb – May 2024

Role: Full-Stack Developer (Frontend & UI/UX)

- Built a cross-platform mobile UI in React Native providing students with a clean, real-time campus news feed
- Designed and implemented intuitive news browsing, commenting, and favourites features with a user-friendly interface

**DrukLitHub – Bhutanese Literature Platform**

Aug – Nov 2023

Role: Full-Stack Developer (Frontend & UI/UX)

- Designed and built an engaging, accessible platform in React to promote and preserve Bhutanese literature
- Developed intuitive UI for browsing book collections and viewing detailed book information
- Implemented clean, user-friendly interfaces for ratings, reviews, and online ordering

# CERTIFICATIONS & ACHIEVEMENTS

---

**Google UX Design Professional Certificate**

Sep – Nov 2025

Completed a 7-course series covering UX research, wireframing and prototyping issued by Google via Coursera

**AWS Academy Graduate – Cloud Foundations**

Oct 2024

Issued by Amazon Web Services

**2nd Place, Bhutan Capture the Flag 2025 (Entry Tier)**

Oct 2025

National cybersecurity competition organised by GCIT, GovTech Agency & JNEC Demonstrated skills in network security and analytical problem-solving.
