PERSONAL STATEMENT

Adaptable Gyalpozhing College of Information Technology Computer Science graduate, specialized in full-stack development. My educational background, combined with hands-on experience in React, React Native, Node.js, MySQL, and UI/UX design gained through academic projects, will allow me to build and deliver complete, user-ready web and mobile applications across the full stack. This, in unison with a foundational understanding of cybersecurity and a passion for solving real-world problems through technology, will allow me to slot into your team seamlessly and help you build scalable, production-ready digital solutions.

SKILLS

Technical Skills

- Front-End Development: React, React Native, HTML, CSS
- Backend Development: Node.js, MySQL
- UI/UX Design: Figma, Wireframing
- Project Management: Team Collaboration, Agile Workflow, GitHub
